Touch a Diamond

Printable Ring Sizer

Before measuring your ring, make sure this ring size is printed in A4 and scaled to 100% by placing a credit card on the line below.

If your card lines up, you're all set to make your measurement.

Cut out this sizer & measure your ring:

Find a ring that fits comfortably, preferably one you wear on the same finger you plan to wear your new ring.

Cut out this ring sizer by following the dotted line.

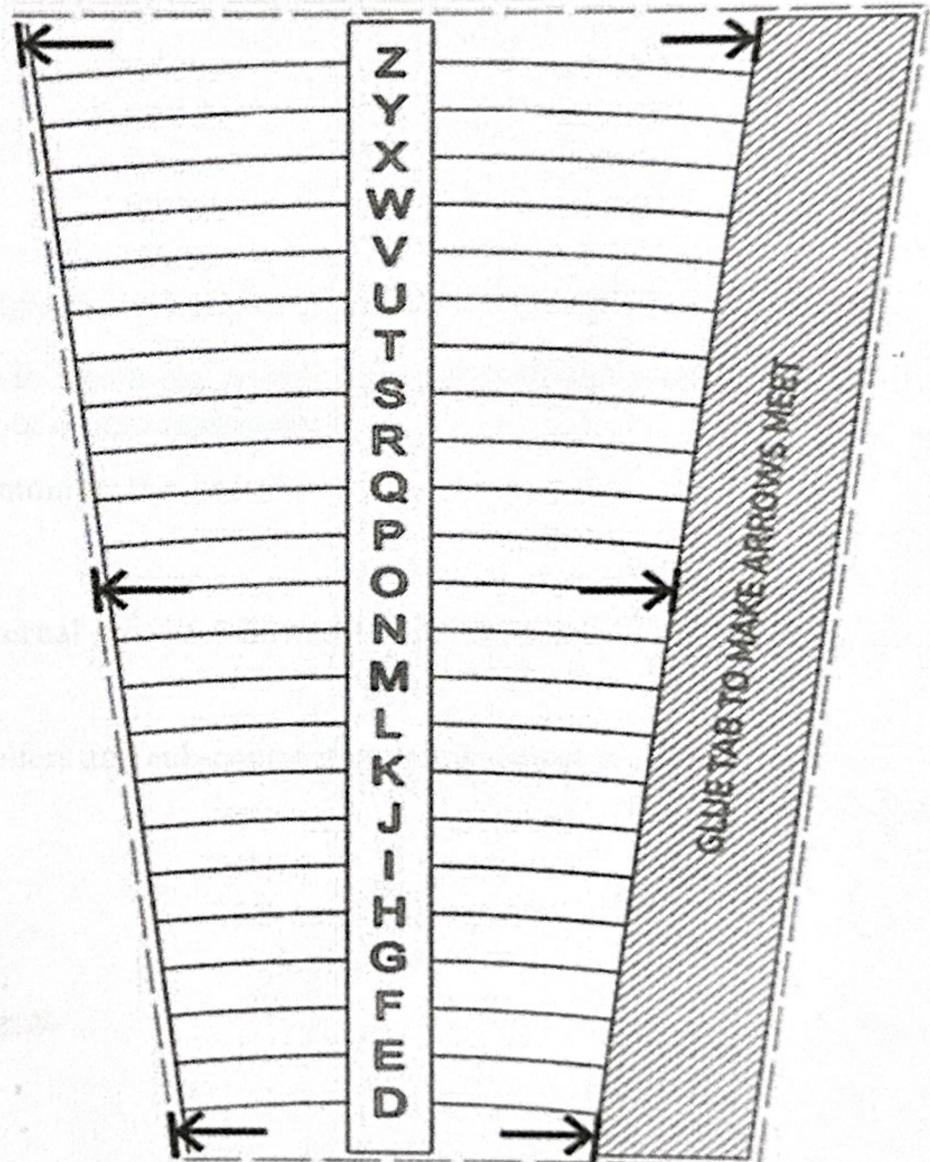

Carefully glue the striped tab under the opposite side of the ring sizer, so the two edges neatly overlap.

You will find arrows on either side of the sizer. Be sure to make these arrows meet together to get the best results.

You'll end up with a cone-shaped paper cutout. Slide the ring along the cone until it sits comfortably.

Your size will be indicated on the first line the ring reaches.

Please keep in mind that this size is an approximation. Once you have found your ring size, it's always best to contact our customer support, so we can go over the results and assist you in the next steps.
